

Hello! We are Erez and David and hope that through this letter you will get to know about us and our dream of becoming parents

## WHO WE ARE

We have known each other most of our lives and since our paths crossed again in 2008 we're inseparable. In 2014, we got married and celebrated with more than 100 family members and friends.

In 2015 we moved to Vancouver and made it our permanent home as we think it's the perfect place to start our family. We have surrounded ourselves with plenty of friends, many are new parents. Your child will have plenty of cousins to play with as they are literally our second family.

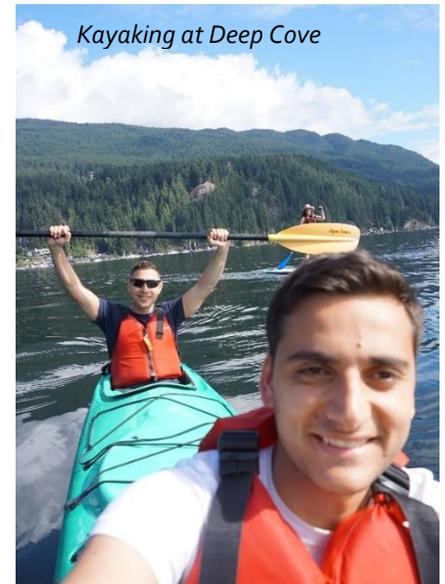

## WHAT WE LIKE TO DO

We enjoy taking a stroll on a greenway steps from our house, picking fresh ingredients from farmers' markets, try out new recipes or watch our favorite TV show. We both grew up with a tradition of Friday night family dinners and to this day it is our favorite time of the week. We want to raise our children with this tradition of cooking and eating together.

Traveling is also something we really enjoy; we love to go for hiking or snowshoeing in the local mountains or exploring places for camping. We are excited to introduce the great outdoors to the little one.

We also love traveling to other countries, whether it's a bus tour in Paris or zip lining in Thailand. *We hope to go on a Safari trip as a family because of our love for animals, and we believe it will be an amazing learning experience for a child.*

## ABOUT DAVID BY EREZ

The way David goofs around with kids and speaks their secret language is adorable.

He is supportive and understanding and always seems to have the most reliable, calm and understanding advice. He is a marketing manager for a large telecom company and one of the best perks of his job is the flexibility of working from home which would allow spending more time with our child. I know he would be an incredible parent because he is selfless and goes above and beyond for others. Relationships with family and friends are a priority for David and he never hesitates to show up when needed.

David and our friends' 2-year old

He is passionate about soccer and an avid fan of the Manchester United team. He tries not to miss any game at the lively fan club even at 6am on a Saturday.

### ABOUT EREZ BY DAVID

Luckily for Erez, he was always surrounded by many loving family members; in addition to his twin and elder sister, he also earned another half-brother and an adopted sister from his father's second marriage. The close family ties inspired him to start his family from young age, no matter its form or shape.

Erez with his niece and family

Erez has a great sense of humor, there's nothing like a belly-rolling laughter to get us through any situation in life. As an internal consultant for a government agency, he enjoys the human interaction and finding a common language with people around him. In his spare time, he's either running or biking, or wood-working. Erez also loves baking, his specialty is a delicious chocolate crunch cake.

### OUR CAT CHUBBY

Chubby was adopted 6 years ago from an animal shelter when she was only 2 months old. She's the furriest in our family, wearing a soft, white fur and has cute little sweet paws. She brings us a lot of joy and is very sweet, gentle, loves to cuddle and wonderful with children.

What a lovely gift for Christmas!

### WHAT OUR HOME WOULD BE LIKE?

Our home is a place for us to be silly and playful, sing using a broom stick as a mic while cleaning the floor, initiate a tickle game or a pillow fight. We will unconditionally love our child, just as each of us were loved and raised by our own parents. We will encourage our child to follow their dreams and we will always be there to guide and support every decision he or she makes.

A year ago we bought our dream house at the suburbs of Vancouver, surrounded with many young families and steps from a large park with playground, swimming pool and a fantastic elementary school. With 3,500 sqft of living space and a large backyard, there would be plenty of space to play year-round.

Our house

### THOUGHTS ON OPENNESS

Adoption is not strange to us. Through the lens of Erez's sister, Noa, which was adopted as a newborn, we learned that there is no such thing for a child having too many people who love them. Her background is an important part of her personality and part of the confident person she has become. We look forward to meeting you and forming the beginnings of what will hopefully be a mutually respectful, life-long connection.

### THANK YOU!

We don't know what it's like to be in your shoes right now, but we imagine it can't be easy.

Thank you for taking the time to read our letter and hope you'll find comfort in knowing that we will do our best to provide a stable and loving home for your child.
